

# SEMINAR

BLUE ECONOMY

## EDUCATIONAL GOAL

A seminary in partnership with the International University of the Sea. Learn how to develop your maritime related activities in order to preserve the seabed and sustainable development.

## TEACHING METHODS

- Dynamic exercises based on progressive methods and real-life situations
- Oral expression
- Written expression
- Webinars with expert speakers in the field

## PROGRAM

Identify and understand the stakes that maritime conservation implies :

- marine biodiversity
- analysis of the fishing industry
- naval transport
- geopolitical, socio-economic and sustainable development challenges
- how to set and conduct sustainable projects within the maritime sector

## EVALUATION

A session of role-play exercises during which the participant has to recall the concepts that have been learned throughout the training.

## PEDAGOGICAL SUPPORT

Training evaluation will be assessed by specialized trainers.

## DOCUMENTS AND MATERIAL FOR TRAINEES

A training certificate together with an evaluation form listing the competences acquired throughout the training will be given to the trainee
